PROFILE

Introduction:

MEVAC for Investment Co. Ltd. Electro-Mechanical Division is a group of engineers specialized in Supply Design, sales, installation and maintenance of electromechanical equipments and systems. Our specialization includes the design and supply of pumps systems, Air-conditioning systems, ducting works and accessories, cold stores equipment, elevators and escalators, fire fighting equipment, water and sewage treatment plants and power plants.

Since inception, and depending in our long experience achieved and extended through our base company **ELITE TRADING & CONTRACTING** we have maintained a vision of an organization as honest, fair, professional and committed to complete customer satisfaction by providing the latest technologies and highest quality materials.

Our main sector is the Air conditioning department. Our duty in this department is to provide a full scope of air-conditioning service. We have a comprehensive design team using sophisticated soft ware's for the preparation of load calculation and design drawings. Not only this, we supply also the most famous brands of HVAC equipment.

We are pleased to declare that we will do the installations, provide the technical support and the after sale spare parts. Our department will provide the A/C Equipments, Air cooler units and all the ducting accessories required for the installation of a complete HVAC system servicing the ducting works through our local workshop.

As for pumps, we can assist our clients to select the best suitable types for specific applications. We also can assist in sizing the pump capacities and heads by analyzing the requirement and pipe routing. We can supply and install chilled water pumps, fire pumps, water supply pumps, booster pumps and submersible pumps.

All pumps can be supplied together with control panels and other accessories to make the operation automatic.

Vission:

To become one of the best Electro-Mechanical Companies in the region providing a consistent high quality of work aiming towards customer satisfaction in a Green World.

Mission:

- Our Employees are our core concern to create a better work place and environment for better creativity.
- To win a Network of partners in order to create and Enduring High Technology Values.
- A Highly Efficient motivated staff with fast track Organization.
- To be responsible and professional giving solutions to cover customer needs targeting their satisfaction.

Green World Better Planet

We deal with products of the following categories:

- Air conditioning equipment
- Air cooler units and spare parts.
- Ducting works and accessories
- Fire fighting equipment
- Water storage Tanks (Fiber glass and panel tanks)
- Swimming pool and Fountains mechanical equipment
- Sauna and Jacuzzi equipment.
- Water Heaters & Boilers
- Drinking water Fountains & Chillers
- Instrumentation and Controls
- Cold stores equipment
- Air Compressors and Spare Parts
- Copper Pipes Black Steel Pipes, PVC Pipes and fittings
- Pipe supports and Hangers
- General Valves
- Copper Solutions
- Fiber Solutions

- Faceplates
- Intelligent Infrastructure Solutions
- Active Components
- Security Solutions
- BMS Controls

Operation & Maintenance Contracts (OMC)

MEVAC FOR INVESTMENT offers its customers a variety of options for operation and maintenance for the equipments and systems, such as air conditioning units, pumping units and stations, air compressors, cold stores.

The company is doing all types of maintenance to all A/C systems and accessories, Necessary and preventive maintenance with high experience and qualified staff from engineers and technicians using modern products with high efficiency, that product decrease the electrical consumption.

We can also offer design and feasibility studies for up-gradation and retrofitting of existing installations offering cost effective proposals with latest available technology.

Design & Technical Studies

MEVAC FOR INVESTMENT has the appropriate facilities for design of building services such as plumbing, fire fighting and HVAC systems, shop drawings for installation of pumps, piping layout for water supply and drainage drawings using latest computer software to provide updated projections and performance. Another critical aspect of performance is Design and Technical studies.

Systemax's Business Partners are among the industry's best network infrastructure design and implementation solution providers that adhere to the same high standards of expertise, performance, quality and reliability for which Systemax's solutions are known.

COMPANY ACTIVITIES

Agencies and Representation:-

Westinghouse Air Conditioning & Electronics

MEVAC for investment supply and installation all A/C equipment Chillers, AHU, FCU, Packages, Ducted split...etc, and we are the sole distributor for Westinghouse products in SUDAN.

Westinghouse has consistently provided innovative, reliable, high-quality products and customer service. It's a combination of groundbreaking technology and rock-solid dependability that's made us one of the world's most trusted brands.

Westinghouse has also **Solar Air conditioning solutions** which have been revolutionized AC applications by the integration of photovoltaic power. With an Intelligent Management System, the switch over between the grid and the PV system is seamless, thus achieving high efficiency and avoiding waste of power.

DYNAIR Ventilation Fans (The Professional Ventilation Made in Italy-MAICO)

DYNAIR® is a brand-division of MAICO Italia S.p.A. and is a well-known brand name at global level in the industrial ventilation and plant engineering sector.

Technological expertise, high production capacities, strong research and investment policies together with a personalised back-up service focused on customer needs have, for over 30 years, been the qualities that distinguish our company: Italian excellence renowned throughout the world and an industrial concern fortified by belonging to Maico Holding GmbH, the German group that leads the way in the ventilation industry.

MAICO FANS

- Axial Fans
- Inline Centrifugal Fans
- Box Fans
- Twin Box Fans
- Smoke Extract Fans
- Jet Fans

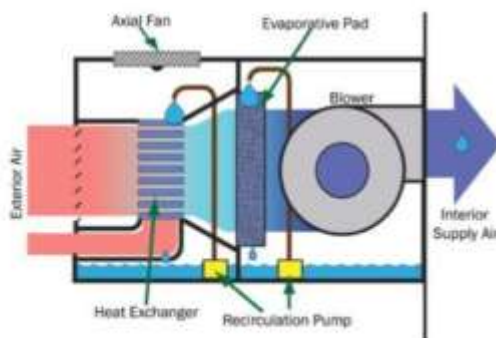

Evaporative cooler:

- Areas where humidity is low and wet bulb temperature is less than 25C are considered 'dry weather' areas.
- Outdoor dry air enters the first stage of cooling where the air is cooled by water-cooled heat exchanger which cools the air without adding humidity. This dry pre-cold air enters the 2nd stage where wet pads cool it further.

SUPERCOOL KEY FEATURES

- Super Cool works on water and cools like an Air Conditioner.
- Temperatures less than 24C can be comfortably maintained.
- The thermostat, auto cleaning system and water softener enhances the "overall performance" and ensures 'additional cost-savings'.
- Super Cool is capable of '80% electricity savings' compared to conventional Air conditioning units.
- Super Cool requires 'nominal maintenance'.
- Super Cool provides 'natural 100% fresh air'.

AIR MASTER & BCI

MEVAC FOR INVESTMENT is the soul agent in Sudan for **AIR MASTER** and **BEST CHOICE INDUSTRIES** who has a full line of products covered all Air Distribution Devices, Air Controls and Ducting Accessories. Air Master Products are well known in the region and approved by the most leading consultants and contractors based on their high quality products, reasonable prices and good lead timing production.

Ramesh Hira L.L.C – HVAC Supplies for the Middle-East

Ramesh Hira LLC, was founded in 1980 in United Arab Emirates, Ramesh Hira LLC, is an HVAC distributor in the Middle-East based out of the United Arab Emirates, the trading hub of the gulf. Since the foundation, the company has been focused on serving all commercial, residential and industrial projects.

Hira Industries Brands:

- **Aerofoam**

Aerofoam® Insulation Division is one of the six main business lines of Hira Industries L.L.C., being specialized in the manufacturing of Polyolefin & Rubber insulation. Aerofoam® XLPE represents one of the finest range of premium polyethylene foam.

- **Aeroduct**

Aeroduct Ducting Accessories Division is one of the six main business lines of Hira Industries L.L.C., being specialized in the manufacturing of HVAC accessories. Aeroduct products are all made in Dubai – United Arab Emirates, and they meet all applicable.

- **Dimond**

Hira Industries Diamond® Adhesive Tapes Division has been a leading player for the manufacturing of specialty tapes for consumer and industrial ever since its beginning in the year 1996. Diamond® Tapes is based in Dubai, UAE & has a state of the art.

KIMMCO INSULATION

Kuwait Insulating Material Manufacturing Co., (KIMMCO) was established in 1977 and is a market leading insulation solution provider in the Middle East, Africa, the Far East and other Asian countries. As a licensee of Saint Gobain, Isover, the world leader in fiberglass insulation, we manufacture and supply customized reflective, acoustic and fire resistant insulation solutions.

Pearl Industries

Pearl Industries LLC has been a leading name in the manufacturing and trading of Pre Insulated Duct Panels, Garbage Chute Systems for more than a decade with a comprehensive range of engineering services.

Its reputation is built upon delivering top quality, highly reliable products and services, designed to meet the most demanding customer needs.

PHENOLIC PANEL

- ✓ Phenolic foam
- ✓ Reinforced aluminum
- ✓ Fiber glass

ETL LISTED US Intertek

BMS & Controls

MEVAC FOR INVESTMENT is the representative in Sudan for SAUTER (A swiss-based corporate group, internationally active in building automation and system integration, with headquarters in Basel).

Sauter produces hardware and software for regulation, control and building management systems (**BMS**) for applications in the fields of heating, ventilation and air conditioning. The product range includes room sensors, transducers, thermostats, pressure switches, electrical actuators, pneumatic actuators, valves, mixing valves, and dampers. On the management level, Sauter develops various software solutions for building management, as well as systems and room automation stations for individual room control and room management. Development and production takes place at the factory in Basel.

MIRIAM TRADING

Miriam Trading Company (Saudi Arabia) is a National Manufacturer of pipe support systems and regional agent for wide range of A/C accessories such as (Duro-Dyne, AFFICO, ABRO, ATCO... etc)

Dampers & Duct Accessories:

Products

<p>Flexible Duct Connector</p> 	<p>Insulated Flexible Duct Connectors</p> 	<p>Insulation Fasteners</p> 
<p>Perforated Base Hangers</p> 	<p>Flexible Ducts</p> 	<p>Damper Accessories</p> 

A blue-bordered graphic containing six product categories. Each category has a title and a representative image. The categories are: Flexible Duct Connector, Insulated Flexible Duct Connectors, Insulation Fasteners, Perforated Base Hangers, Flexible Ducts, and Damper Accessories.

HEAVY DENSITY PIPE INSULATION

INSULATION TAPES:-

- Silver cloth duct tape
- Aluminium foil tape
- Cork tape
- Insulation foam tape
- FSK facing tape
- ASJ facing tape
- Smooth Aluminium
- Corrugated Aluminium
- Painted Aluminium m
- Stainless Steel

FLEXIBLE DUCT

High quality aluminium foil flexible air duct for use in commercial HVAC systems and provides easy and fast installation with round or oval connections.

Air tight construction with smooth bore for low friction loss and lower operation cost.

Pipe Support System

- UNIVERSAL CLAMPS
- GALVANIZED STANDARD CLEVIS HANGER
- CLEVIS HANGER FOR INSULATED PIPE
- RISER CLAMP COPPER TUBING

FOSTER

- **FOSTER FIRE RESISTIVE C.I. MASTIC** is a tough, durable, high solids vapour barrier and weather-coating for the protection of thermal insulation in outdoor service. Its excellent weather and fire resistance makes it suitable for use in place of conventional asphalt cutback mastic. It is an ideal surface coating for low temperature insulating applications where the insulation used is not affected by mild solvents.
- **FOSTER S.M. ADHESIVE** is a low cost, quick-setting synthetic elastomeric adhesive for use with fibrous glass insulation (up to 3 lbs./cu.ft.) duct wrap and acoustical linings for air handling ducts.
- **S.M. ADHESIVE**
- **FOSTER LAGFAS ADHESIVE/COATING.**

Design and Installation Alarm System

Fire fighting:

Solutions and Services

Building Automation Solutions (BAS): A high-technology installation that controls and monitors a building's mechanical and electrical equipment, using the latest open protocols for integration and management applications.

Security Solutions: An array of security, access control and intrusion systems providing maximum security for tenants, visitors and assets.

Safety Solutions: Active fire-protection systems that detect gases, fire or the effects of fire, these solutions can include alarm devices, alarm notification appliances, control devices, annunciators, power supplies and wiring.

Closed Circuit TV Systems: Concerns over violent crime and civil liability lawsuits have caused both large corporations and small businesses to investigate ways of securing their livelihoods. CCTV systems are a popular security tool for visual assessment and recording of events. Smart conventional and IP-based round-the-clock surveillance allows for even greater control.

Office/Home Automation Systems: For the user's convenience, networked configurations of hardware and software can now be applied to business and communications functions that used to be performed manually or in multiple locations.

SECTION B

COMPANY CLIENTS

B. Company Clients

Since its establishment, MEVAC FOR INVESTMENT was eager to penetrate the market offering its services to our valued customers. This relationship that we have established was not recently created. It has developed through the long years of mutual business that our engineers had with those customers in other organizations before MEVAC was established.

Now, after the gathering of this MEVAC FOR INVESTMENT group of engineers with the perception of giving a quality of work to our customers reaching their satisfaction and with a well organized strategy of marketing our services, we will reach our goals hopefully with in a very short period.

We mention few of our valued Customers with whom we have developed an excellent relationship either by design and Consultancy, supply of Equipment or by contracting and to whom we are grateful for giving us the chance and opportunity to service them.

SECTION C

Quality Assurance & Control

C. Quality Assurance & Quality Control:

MEVAC FOR INVESTMENT has developed extremely comprehensive and detailed operational and administrative procedures, which ensure that strict standards of control are maintained at all times.

These procedures involve a system of counter checking and reporting which ensures that a high standard of quality control is maintained on all our activities.

Where applicable, non-destructive testing systems and procedures are utilized to the maximum. These include visual inspection, ultrasonic inspection, radiography, ...etc. In cases beyond our in-house capability, we utilize the services of third party inspection companies. In particular our testing and inspection tools and instruments cover the whole range required to carry out all the Balancing, Testing, and Commissioning of HVAC systems in accordance ASHREA and NCBB Standards and procedures.

These capabilities together with the services of our experienced and qualified engineering personnel, allow us to provide a comprehensive, effective, and fully responsive, quality assurance program of our clients.

All records are fully computerized, with the exception of actual photographs and chart readouts which are stored in archival files in our engineering offices.

COMPANY POLICY for QA/QC:

It is the policy of MEVAC FOR INVESTMENT to pursue a Policy of Quality to comply with the requirements of the following:

- BS 3750 : Part 2 : 1987
- ISO 9002 – 1987
- BSI Quality assessment schedule QAS/3284/150

The overall responsibility for the quality system and policies rests with the Technical Manager. No change to the system may be made except through authorized procedures.

MEVAC FOR INVESTMENT therefore places accountability for the maintenance of the company's specified quality standard and requirements of the relevant authorities in all departments and employees.

It is the responsibility of each division to define departmental policy and to maintain effective control of all documents, procedures and practices, relating to the overall quality concepts and standards.

Quality is responsibility of all functional departments.

The quality assurance department/ supervisor is responsible for auditing and advising all other departments regarding their performance with respect to the quality system.

The overall objective is to provide our customers with services of high quality, reliability and in accordance with all specifications, standards and latest state of art technology, which meets or exceeds competitive quality levels.

SECTION D

A-WORKS COMPLETED

B- WORKS under Construction

1. Work Completed:

Since establishment of the company many design projects, supplies and installations had been done within the scope and under the management of Elite Trading & Contracting and continued under the new umbrella of MEVAC Co. which could be tabulated as follows:

Projects Completed

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
1	Ministry Of Industry	Akbar Engineering Group.	Supply and installation of chilled water system material & equipments to a capacity of 260 TR	2003
2	Ali Bin Jabr Islamic Compound	Zo Alnorein Organization	Supply and installation of Ducted Split units and unitary small units with air distribution system and ventilating system with a capacity of 230 TR	2003
3	Khartoum Air Port VIP Halls	DAL Group	Installation Of Ducted Split Air Conditioning System with capacity of 170 TR	2004
4	ASHRAF Tower	AWTAD Engineering	Supply and installation of ducted split with a capacity of 300 TR including ducting diffusers insulation and accessories	2004
5	Royal Villas (A&B)	MASA Group	Supply and installation of Ducted Split units with air ventilating system.	2005
6	Port Sudan Hotel	Social security investment authority insurance fund	Supply and install of Fire Fighting System	2005

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
7	SAYGA Cafeteria	SAYGA	Supply and installation of Package units with air distribution system, including hoods and ventilation system.	2006
8	SAYGA Engineering office	SAYGA	Supply and installation of Ducted Split units with air distribution system	2006
9	WADAA Building in UofK	SEAPAL Invest.	Supply and installation of Ducting works with air distribution system and accessories.(150TR)	2007
10	NEC – Load Dispatch Center	NEWTECH	Complete Design of HVAC System including provision of Drawings, Specifications and Bill of Quantities.	2007
11	LCD PRODUCTION	Digitech (LG)	Supply and installation of package system & A/C accessories	2008
12	ERICSON H.Q	Eng. \Khalid A. Al-Tahir	Supply and installation of Ducted Split units with air distribution system (100 TR)	2008
13	SAYGA Power Station	DAL Group	Supply and installation of Ducting system.	2008
14	Surgery operation room – Military Hospital	CTC (LG)	Supply and installation of Ducting system & accessories	2009
15	Sudan Airways	Sudan Airways	Maintenance for Chilled water system (400 of TR)	2009
16	Special Flight Services	Special Flight Services	Maintenance for Ducting spilt of 75TR	2009
17	AL-Nile College	AL-Nile College	Supply and installation of package system (300TR)&accessories, Fire Fighting &Fire Alarm system	2010

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
18	LG Showroom-Khartoum	DIGITECH	Supply & Installation of Ducted Split System with a capacity of 40 TR	2010
19	Sudanese Egyptian Bank	DESIGN 2000 CO.LTD	Supply and installation of Ducting spilt system & CCTV.	2010
20	BANAT Substation	NEC	Installation Of Air Conditioning System (package unit s) + supply and installation of ventilation system	2010
21	ALROWAD COMPANY	ALROWAD TOWER	Fire Fighting & Fire Alarm System	2011
22	SAYGA PACKING HALLS (Sugar, Milk, Pulses)	SYGA	Supply and installation of chilled water system (300TR) & A/C accessories.	2011
23	AL-Ahfad University	Digitech (LG)	Supply and installation of package system for two lecture halls (80TR)	2011
24	Yamani Factory / Pharmaceutical	Yamani Factory / Pharmaceutical	Supply and installation of fresh air package unit + Ventilation work	2011
25	Blue Nile Channel Building	Blue Nile Channel	Supply and installation of Packaged unit +Ductwork	2011
26	Alginaid Substation	NEC	Installation Of Air Conditioning System (package units) + supply and installation of ventilation system	2011
27	Al Haisahisa Substation	NEC	Installation Of Air Conditioning System (package units) + supply and installation of ventilation system	2011

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
28	Medical Modern Center	Medical Modern Center	Supply and installation of Chiller system for MRI room + Maintenance for the existing AC system	2011
29	Operational Theatres SOBA Hospital	SOBA HOSPITAL	Supply and installation of chilled water system (100TR) include operation theatre rooms, sterilization room & A/C accessories.	2012
30	UNDP-GLOBAL FUND	UNDP	Supply & Installation Of Air Conditioning of 186 TR All Over Sudan	2012
31	French ambassador villa	French Embassy	Supply and installation of Ducting spilt system	2012
32	SAYGA Control Room	DAL Group	Supply and installation of duct work & A/C accessories	2012
33	SAYGA Animal Feed	DAL Group	Supply and installation of jet fans + Air out lets	2012
34	SAYGA Milk Factory	SAYGA	Supply and installation of Ducted Split units with air distribution and filtration system.	2012
35	SAYGA Mill Factory	DAL Group	Supply and installation of ventilation work + Ductwork + Air Outlets	2012
36	Coca Cola Chemistry Lab	SEAPAL Invest.	Supply and installation of Ducted Split units with air distribution system and ventilating system	2012
37	Taxation Chamber Building	Taxation	Supply and installation of duct work & A/C accessories	2012
38	SAYGA Compressors Room	DAL Group	Supply and installation of ventilation work + Ductwork & A/C accessories	2013

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
39	SARAF hall	LG Digitech	Supply and installation of 100% fresh air packaged unit	2013
40	Ozone Restaurant	DAL Group	Supply and installation of AC Package units + ventilation work + Ductwork + Air Outlets	2013
41	BASH FARMA Company	BASH FARMA Company	Supply & Installation of Central Chilled Water System with capacity of 400 TR	2013
42	SAYGA Central Kitchen	SAYGA	Supply and installation of chilled water system	2013
43	Tadamon Bank	Tadamon Bank	Supply and installation of Ductwork	2013
44	Pharmaceutical Warehouses	Medical Supplies National Fund	Supply and installation of AC packaged units system 200 TR	2014
45	Sudanese French Bank / Al Mashtal branch	SEAPAL Invest.	Supply and installation of Ductwork	2014
46	SAYGA Bakery	DAL Group	Supply and installation of Ductwork	2014
47	UNDP GLOBAL FUND	UNDP	Supply and installation of fresh air packaged units	2014
48	UNDP-GLOBAL FUND	UNDP	Supply and Installation of the Central A/C For Pharmaceutical Warehouse (Bahri)	2014
49	KBCC hospital	Digitech (LG)	Supply and installation of ventilation work & A/C accessories	2014
50	Fedail Hospital	CTC (LG)	Supply and installation of 100 TR fresh air package units with HEPA filter.	2015

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
51	Al 60 Tower	Ideal Company	Supply and installation of ducted split system 38 TR	2015
52	Fedail Hospital	Fedail Hospital	Supply and installation of duct work	2015
53	Nile College / Administration Building	Nile College	Supply and installation of AC system TR	2015
54	Villa Mr. Mohammed Hafiz	Mr. Mohammed Hafiz	Supply and installation of ducted split system	2015
55	Villa Mr. Omer Hafiz	Mr. Omer Hafiz	Supply and installation of ducted split system	2015
56	Berkt Almlook Wedding Hall	Berkt Almlook	Maintenance of AC packaged system	2015
57	Al Saffat Tower	Social security investment authority	Supply and installation of Ventilation system (Pressurization + smoke fans)	2016
58	SAYGA Pasta Plant	SAYGA	Supply and installation of AHU 70 TR and Pre-insulated duct work	2016
59	Stack Labs	UNDP	Supply & Installation of 100% fresh air package including pressure alarm system	2016
60	Nile College / Research Building	Nile College	Supply and installation of AC system TR	2017
61	My City wedding Hall	Ministry of Finance	Supply and installation of AC Packaged system 125 TR	2017
62	Nile college Dental Building / Stage 1	Nile College	Supply and installation of split units + cassette units	2018

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
63	MICO Hatchery	MICO Poultry	Maintenance of chilled water system	2018
64	PETRODAR building	PETRODAR	Maintenance of chilled water system	2018
65	Khartoum Air Port departure Halls / Stage 1	Khartoum Air Port	Supply and installation of AC packaged units system	2018
66	MICO Hatchery	MICO Poultry	Supply and installation of additional chiller and water tank	2019
67	Somarain Oriental Office building –Port Sudan	SOMARAIN Oriental CO.LTD / Sudan	Maintenance of ducted split system	2019 - 2020
68	Khartoum Air Port departure Halls / Stage 2	Khartoum Air Port	Supply and installation of AC packaged units system	2020
69	Nile college Dental Building / Stage 2	Nile College	Supply and installation of AC packaged units system	2020

Completed Supply Only Projects:

NO	PROJECT	CLIENTS	SCOPE OF WORK	Year
1	NEC Administration Building	DANFODIO	Supply of chilled water system of (400TR) including York Chillers, AHU`s, FCU`s & pumps in addition to ducting system& piping system.	2004
2	Bank of Sudan Khartoum Central Branch	ALBONYAN Co.	Supply of Ducting Accessories & Diffusers for the whole building	2007
3	ARAPCO	LA CONSTRCTA	Supply A/C Accessories & Diffusers for the whole building	2007
4	ALSLAM HOSPITAL	MEZAB	Supply A/C Accessories & Diffusers for the whole building	2008
5	NISSAN Show Room	SEAPAL	Supply A/C Accessories	2010
6	Al Diffaf	Digitech	Supply A/C Air outlets	2015

2. Projects on Progress:

NO	PROJECT	CLIENTS	SCOPE OF WORK	STATUS
1	MOROUIJ Food Industry New Building	MOROUIJ Food Industry	Supply and installation of AC AHU & FCU units system	On Progress

Showroom:

Our Show Room established in a wide space with all needed and located at the main trading road in Sudan (AL Steen street) which is the best trading street in Khartoum.
